# «L-PACK» IS A UNIQUE FULL-CYCLE ENTERPRISE

We'll Pack Everything!

# PAPER

Production of liner and fluting from raw wastepaper materials (OCC and TetraPak packaging).

**700  
tons/day**

**1000  
tons/month**

We'll Pack Everything!

# CORRUGATED BOARD

## BHS corrugated board making machines (Germany)

Size – 2500 mm

Length of workpieces –  
5500 mm

Max. speed– 400 m/min

We'll Pack Everything!

# CORRUGATED BOARD

## Corrugator FOSBER (Italy)

Size – 2800 mm

Length of workpieces –  
5500 mm

Max. speed– 370 m/min

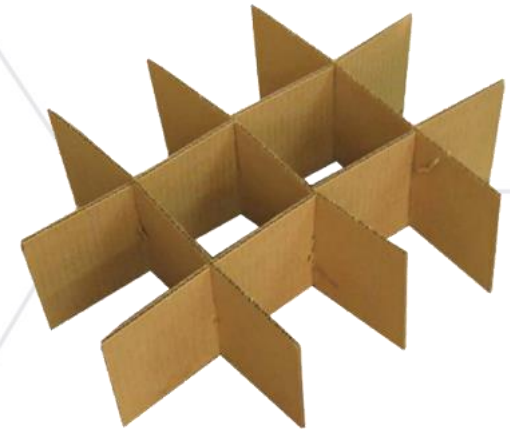

# CORRUGATED PACKAGING

**Four-valve boxes  
(including large-sizes)**

**Products of complex  
die-cutting**

**Lattices**

# CORRUGATED PACKAGING

## Midline Emba (Sweden), 5-color print

Size – 2450x1000 mm

Maximum speed – 500 pcs/min

Our world record: 337 954 boxes  
per 12 hours

Changeover time: up to 1 minute

We'll Pack Everything!

# **CORRUGATED PACKAGING**

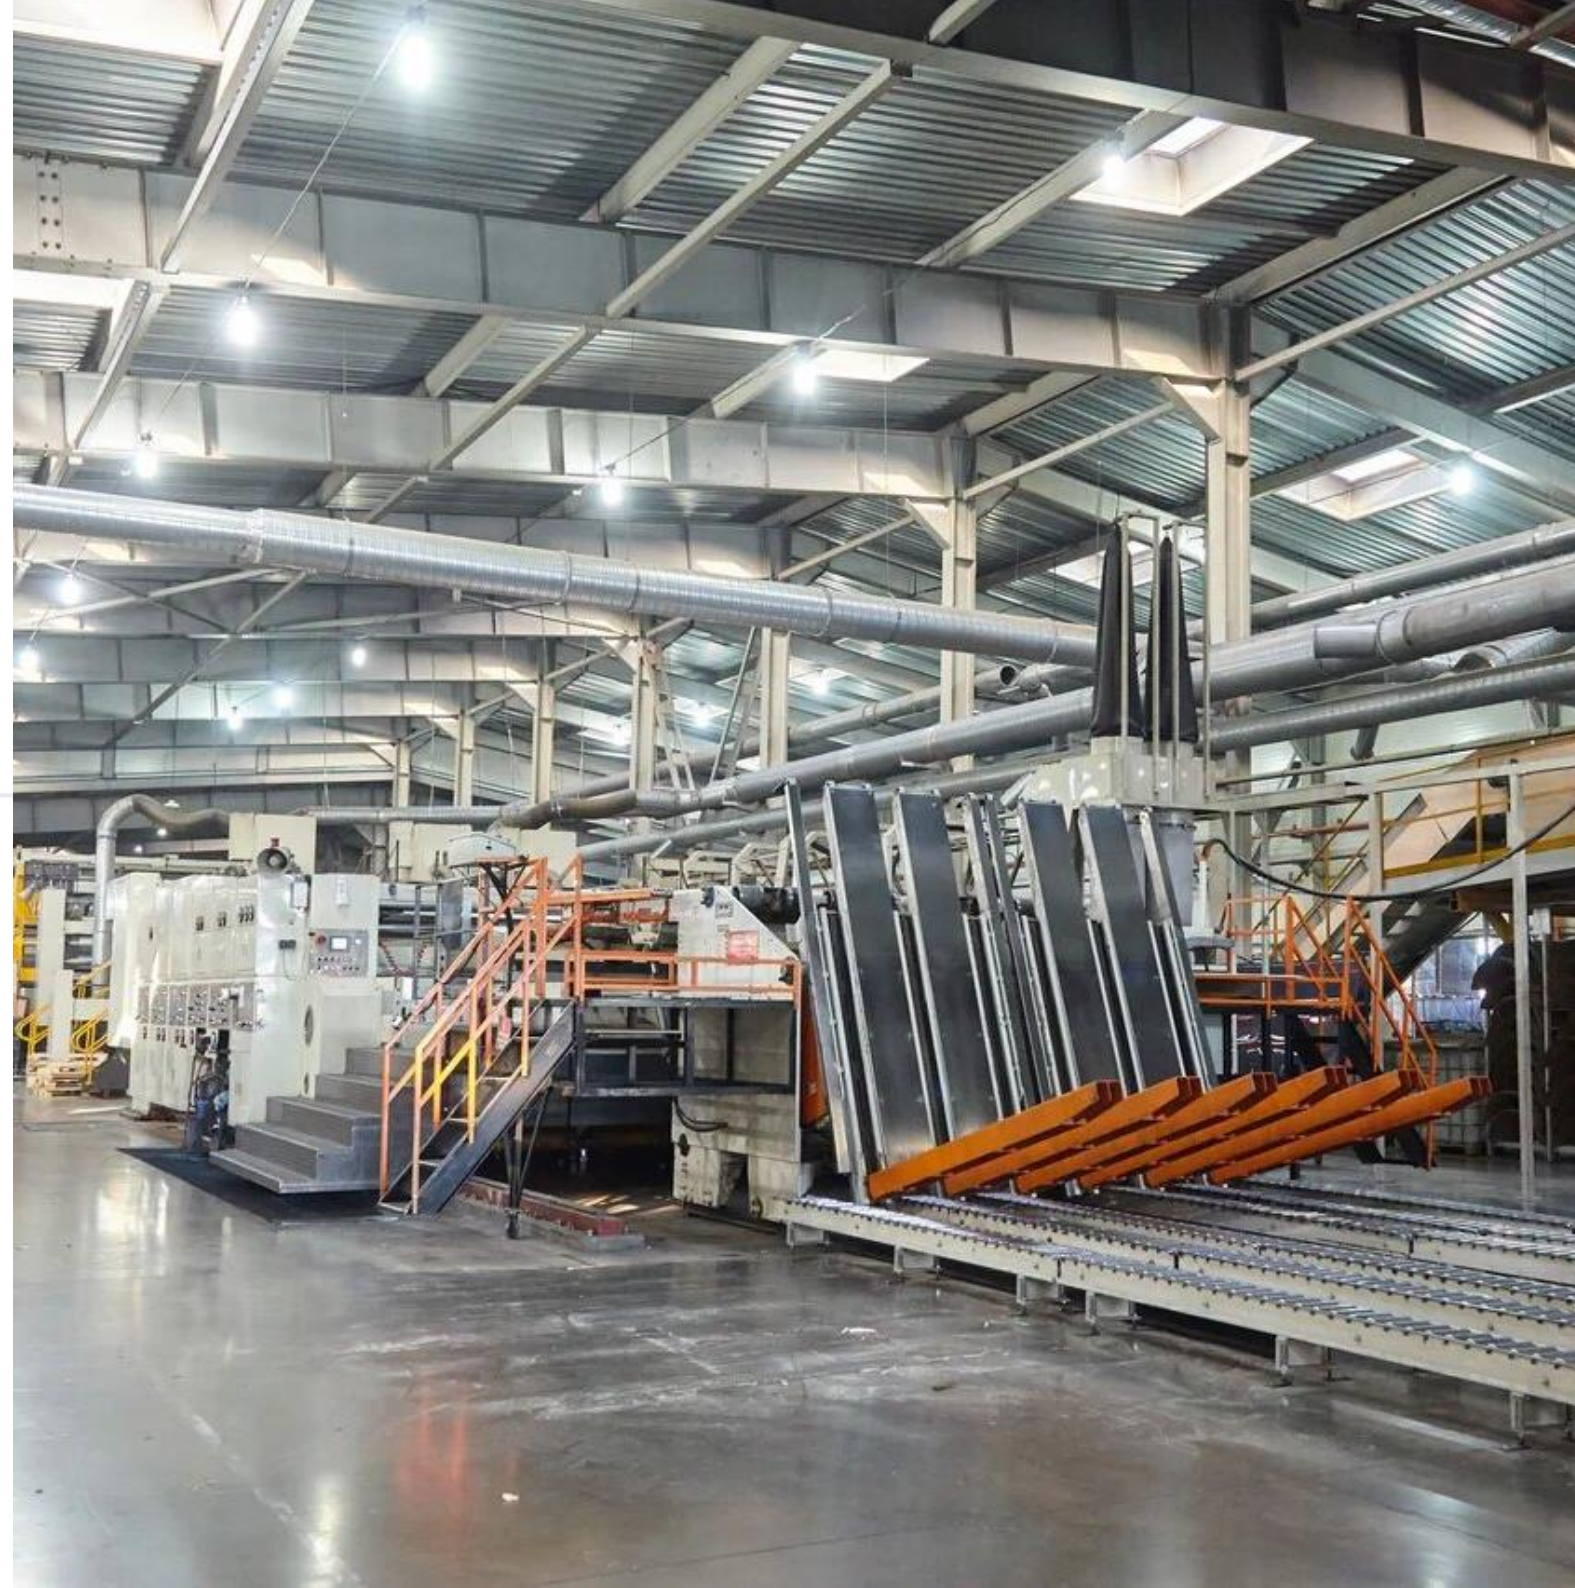

## **Jumbo P2200 LMC (Taiwan)**

Size – 5200x2200 mm\*

Speed – 100 pcs/min

2-color print

\*The largest machine in terms of  
the production output in Russia.

We'll Pack Everything!

## CORRUGATED PACKAGING

### Rotary P1600 LMC (Taiwan) + automation of pallet forming Favalessa (Italy)

Size – 2500x1600 mm

Speed – 180 pcs/min

3-color print

We'll Pack Everything!

# CORRUGATED PACKAGING

## Flat die-cutting Eterna Elite2

MAX size of the sheet 1600x1150.

Output 6000 sheets/h.

We'll Pack Everything!

# CORRUGATED PACKAGING

## Multi-point gluing (four gluing points) BOBST MasterFold 1700

Glues products of complex configuration.

It is possible to glue from one up to four points.

We'll Pack Everything!

# CORRUGATED PACKAGING

## BOBST DRO rotary die cutter

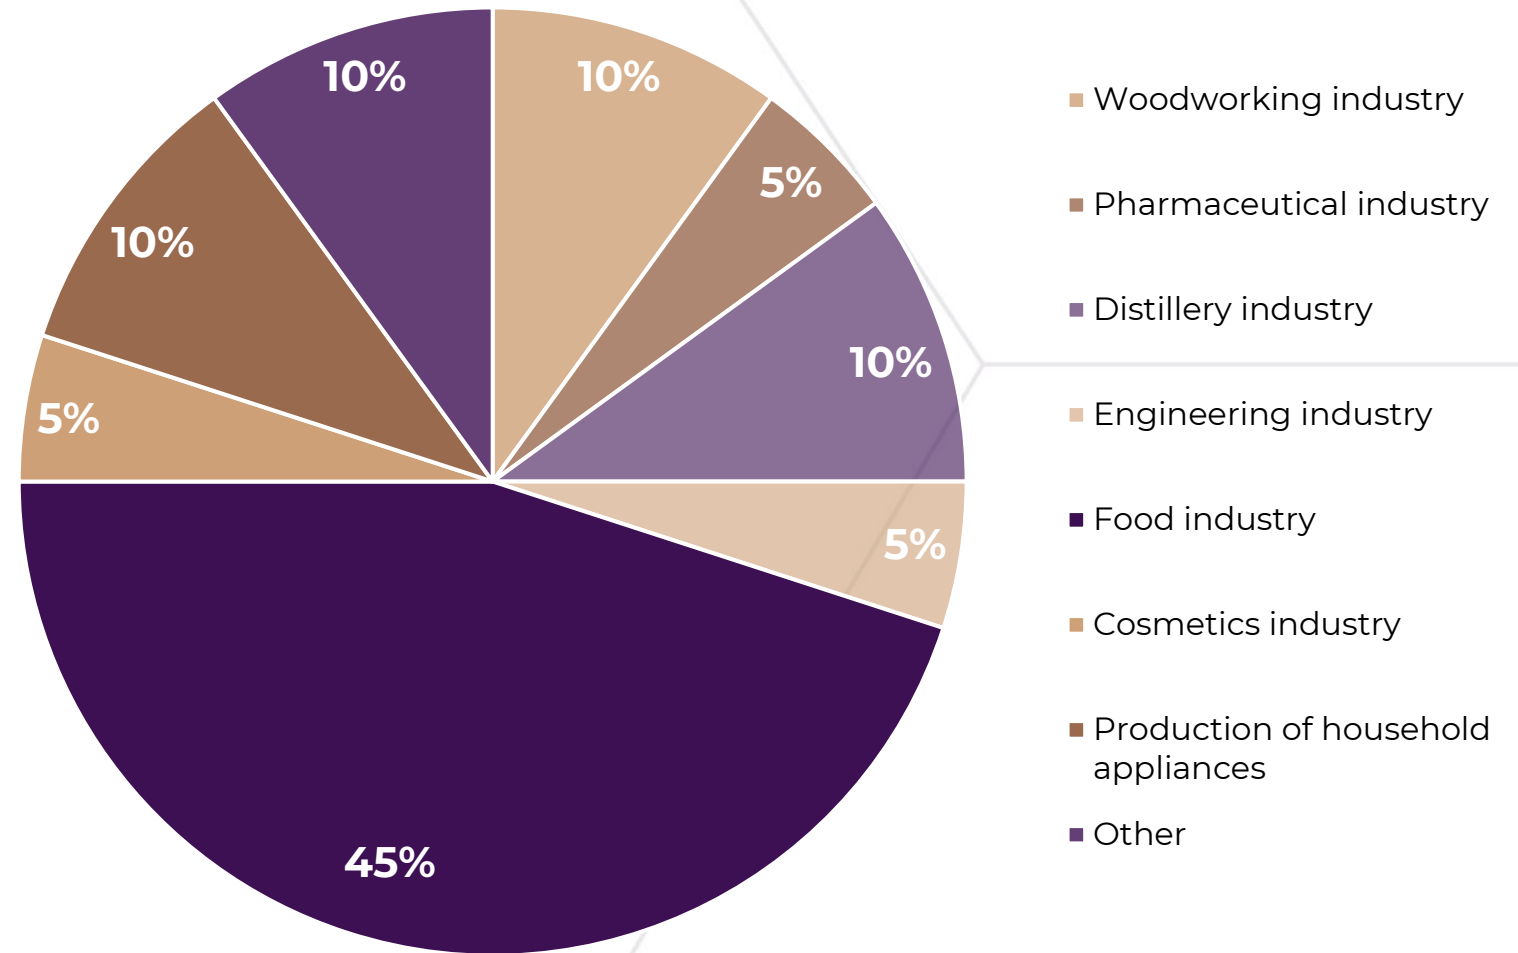

Makes complex die cutter production.

Has 3 print units.

# WE CAN MAKE ANY PACKAGING

We cooperate with the following industries

# SUSTAINABLE DEVELOPMENT

We are aware of the importance of preserving the planet for future generations. By turning paper waste into a new product today, we provide clean air, fresh water and fertile land for our children tomorrow. We realize our mission through a sustainable development strategy, which is based on three main principles:

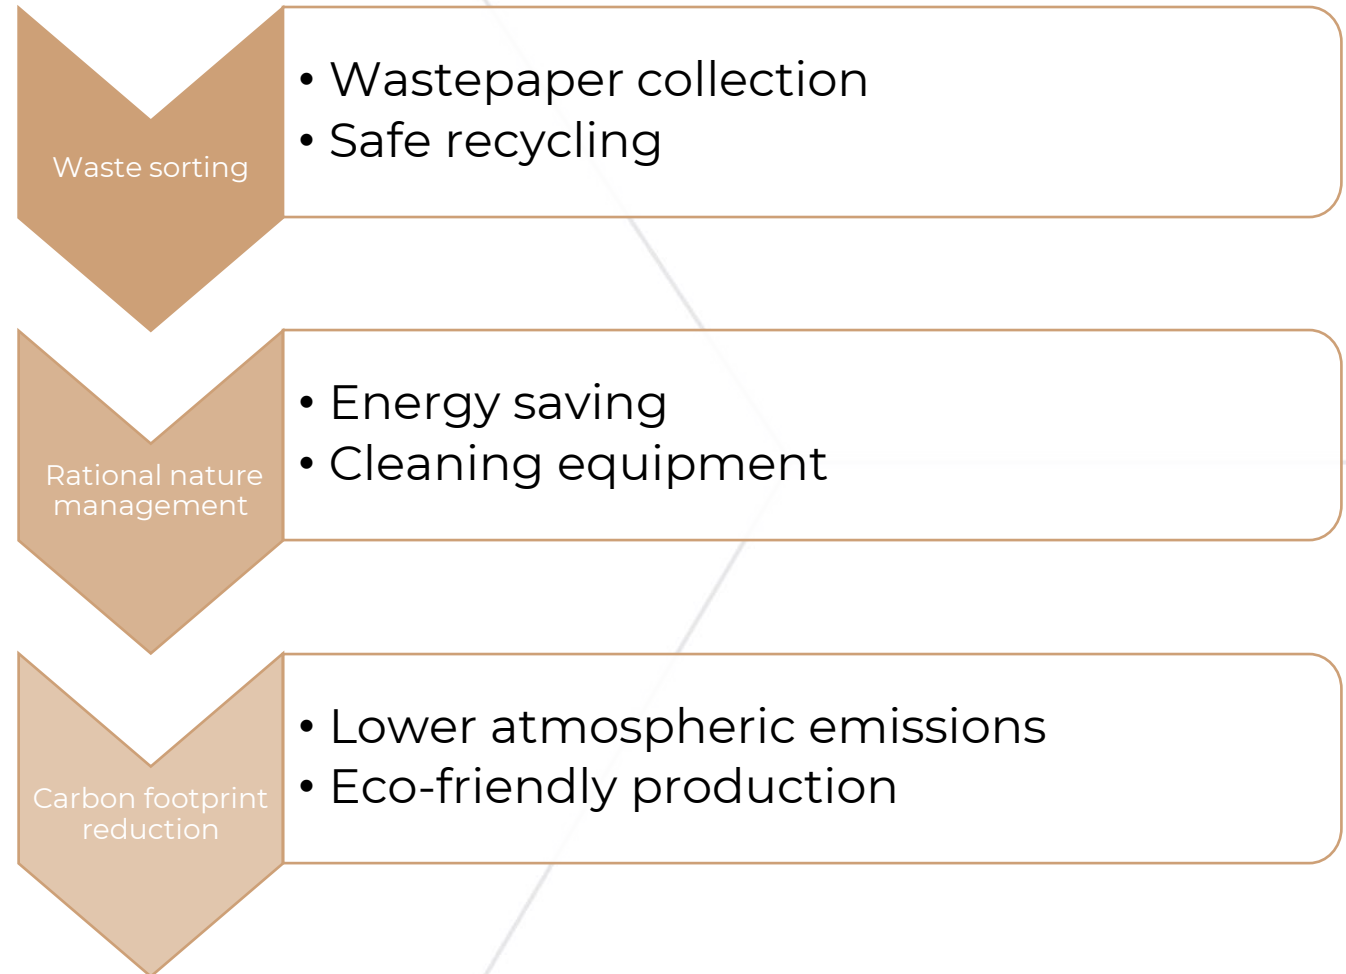

- environmental care;
- care of people;
- care for society.

# ENVIRONMENTAL CARE

Actively using natural resources, L-PACK strives to preserve the balance of existing ecosystems. All technological processes and materials used strictly comply with environmental legislation and other regulatory acts that ensure the preservation of the resources of the planet for future generations. Taking care of the environment is an integral part of our corporate culture.

# CARE OF PEOPLE

The success of the company is the result of the daily work of employees who invest their time, energy and soul in their work. It is important for us that every employee comes to work with pleasure, and leaves with a sense of satisfaction with the results of their work. L-PACK does everything possible for its employees and contractors, taking care of their life quality and maintaining their health when performing production tasks.

# CARE FOR SOCIETY

Our mission is to benefit everyone who cooperates with our company and uses our products. We build honest and transparent relations with suppliers of raw materials, and we do everything so that our customers get the maximum benefit from the use of corrugated packaging produced at our enterprise. Manufacturers of various product groups can entrust us with the packaging of their products – we will make it durable, beautiful and safe.
